

The actions that take place due to Corona virus in Tampere University campuses

The use of premises continues normally

University Properties of Finland Ltd. (SYK) will follow common and state official's guidance during the period that Corona virus is active. Tampere University Executive Leadership has given following instructions in the Corona virus situation and SYK's personnel is following the same directions in their own premises.

All the travelling at work to the epidemic area is interrupted and the travelling to the epidemic area is cancelled. You will find up to date information on epidemic area in the pages of Finnish institute for health and welfare. <https://thl.fi/en/web/infectious-diseases/what-s-new/coronavirus-covid-19-latest-updates>

The person who is coming from the epidemic area need to stay remote working or studying at home for 14 days after returning. Remote working from home, must be agreed beforehand, with foreperson or teacher. The instructions are applicable to every member of SYK's personnel.

The visits of the people coming from the epidemic area are not possible, for now, in the Tampere University area. This kind of visits will be replaced by remote presence applications in Tampere University, Kampusklubi and SYK.

The cleaning of the premises is powered in the Hervanta campus by action of our service provider ISS. We kindly ask all the companies to notice the actions in cleaning in your own office premises. From the campus pages you will find the hand washing instructions and coughing instructions in Finnish and in English.

Campus premises are not infectious or dangerous and they can be used normally for now. If there will be changes in the situation we will inform via our webpages <https://sykoy.fi/en/blog/campus/tampere-hervanta-campus/> and by e-mailing to company contact persons.

Tampere University is writing about the subject in their webpages:
